

How to use KloguBizz, step by step

Sixteen steps, in the order you will need them. Every step shows the actual screen, so you can match what is in front of you to the picture.

Steps 1–4 set-up, once **5–7** your customers and products **8–12** every day **13–15** GST time
16 on your phone Try it at demo.klogubizz.klogu.com

CONTENTS

Set up — do this once

- 1 Create your account
- 2 Fill in your business details
- 3 Set your own bill numbers
- 4 Make the bill look like yours

Add your customers and what you sell

- 5 Add one customer
- 6 Add all your customers at once
- 7 Add what you sell

Every day

- 8 Make a bill
- 9 Look at the finished bill
- 10 Write down a payment
- 11 See who has not paid
- 12 Check your dashboard

At GST time

- 13 Your GST returns
- 14 Turn on e-invoicing
- 15 Reports

On your phone

- 16 Put it on your home screen

A Set up — do this once

1

Create your account

- 1 Go to the sign-up page.
- 2 Type your name, your business name and your email.
- 3 Pick your **state** from the list.
- 4 Choose a password and press **Create Account**.

You get 14 days free. No card.

WHY IT MATTERS

Pick the state your business is registered in, not where your customer is. This decides the tax on every bill you make.

The image shows the Klogu Bizz sign-up page and a sample invoice. The sign-up page is titled 'Create your organisation' and includes a '14-DAY FREE TRIAL' badge. It has fields for 'YOUR FULL NAME' (Priya Sharma), 'COMPANY NAME' (Acme Traders Pvt Ltd), 'WORK EMAIL' (you@company.com), 'PASSWORD' (At least 8 characters), and 'STATE (FOR GST)' (Maharashtra (27)). There is a checkbox for 'I agree to the Terms & Conditions and Service Level Agreement' and a 'Create Account' button. The sample invoice is titled 'TAX INVOICE' and 'INV-2026-0842'. It shows 'Consulting Services' for ₹45,000.00, 'CGST (9%)' for ₹4,050.00, and 'SGST (9%)' for ₹4,050.00, with a 'Total Due' of ₹53,100.00. The invoice is marked as 'Paid'.

TAX INVOICE

INV-2026-0842

Paid

Consulting Services	₹45,000.00
CGST (9%)	₹4,050.00
SGST (9%)	₹4,050.00
Total Due	₹53,100.00

Launch-ready from day one.

Your organisation gets its own isolated workspace — clients, invoices, payments and team roles — with GST math handled server-side, every time.

- ✓ Tenant isolation
- ✓ Invoice numbering
- ✓ Free trial

- Isolated data per organisation
- Encrypted credentials
- No credit card required

The sign-up page. Only five things to fill in.

2

Fill in your business details

Open **Business Profile** from the left menu.

- 1 Type your **GSTIN**. The page checks it as you type.
- 2 Type your full **address**.
- 3 Add your phone number.
- 4 Press **Save Changes**.

CAREFUL

Do not skip this. A bill without your GSTIN and address is **not a valid tax invoice**. Your customer cannot claim input credit on it, and they will only find out months later.

Aurora Industries Pvt Ltd > **Business Profile**

Search or ju **Ctrl K**

Priya Menon
Admin

Business Profile

What appears as the seller on every invoice you issue

Business Identity

Printed at the top of every invoice, quotation and delivery challan.

REGISTERED BUSINESS NAME

Aurora Industries Pvt Ltd

Exactly as it appears on your GST registration.

GSTIN

27AAPFU0939F1ZV

Valid - Maharashtra (27)

PAN

AAPFU0939F

Optional. Characters 3 to 12 of your GSTIN are your PAN.

Address and Contact

Your place of business, and how customers reach you about a bill.

ADDRESS

Unit 4, Kalpataru Estate, Andheri East, Mumbai 400093

STATE

Maharashtra (27)

This decides whether each invoice charges CGST + SGST or IGST — a customer in your state is intra-state, anywhere else is inter-state.

PHONE

022 4800 5000

Printed under your address on the invoice.

E-Invoicing (IRN & signed QR)

Reports your invoices to the government portal and puts the IRN and its signed QR on the document. Mandatory above a turnover threshold; optional below it.

E-invoicing is not switched on for this server yet. Nothing you enter here can connect until it is. Missing: IRP_BASE_URL, IRP_CLIENT_ID, IRP_CLIENT_SECRET, IRP_PUBLIC_KEY.

Business Profile. The green line under the GSTIN means it is a real one.

3

Set your own bill numbers

Open **Invoice Templates** and scroll down to **Document Numbering**.

- 1 Change the prefix to your own initials — for example **AST**.
- 2 Look at the grey line under it. That is the next number you will get.
- 3 Press **Save numbering**.

Moving from another software? Put your last number plus one into **Next invoice number**.

WHY IT MATTERS

Numbers only move forward, never back. Two bills with the same number cannot be undone, so the app will not let it happen.

Document Numbering

The prefix on every document you issue. These were fixed at the platform's own initials until now, so your invoices read KLG-... rather than yours.

Numbering restarts at 1 each Indian financial year (April to March). The number resets to 0001 each year.

Aurora Industries Pvt Ltd > Invoice Templates

KLK

NEXT INVOICE NUMBER

22

Next: KLG-2026-022 • 21 issued this year

CREDIT NOTE PREFIX

CN

NEXT CREDIT NOTE NUMBER

1

NEXT PROFORMA INVOICE NUMBER

1

Next: PI-2026-001

DELIVERY CHALLAN PREFIX

DC

NEXT DELIVERY CHALLAN NUMBER

1

Next: DC-2026-001

Numbering can be moved **forward** — useful when moving from another system and continuing an existing series — but never back. Re-using a number would leave two documents carrying it, and that cannot be undone.

Save numbering

All five document types. Each one keeps its own count.

Make the bill look like yours

Stay on Invoice Templates.

- 1 Upload your **logo**.
- 2 Upload your **signature** — it prints above the signature line.
- 3 Fill in your **bank details** so customers know where to pay.
- 4 Pick a **colour** and a **design**.
- 5 Press **Save Template**.

The picture on the right changes as you go. What you see there is what your customer gets.

Settings on the left, a live bill on the right.

5

Add one customer

Open **Clients** and press **+ Add Client**.

- 1 Type the customer name.
- 2 Type their **GSTIN** if they have one.
- 3 Pick their **state**.
- 4 Add email, phone and address.
- 5 Press **Save**.

WHY IT MATTERS

Their state is what decides **CGST + SGST** (same state as you) or **IGST** (any other state). Get it right once here and every bill to them is right.

Cancel Add Client

Adding a customer. GSTIN and state are the two that matter.

6

Add all your customers at once

Have a list in Excel, or an export from your old software? Do not type them one by one.

- 1 On **Clients**, press **Import CSV**.
- 2 Press **Download CSV Template**.
- 3 Fill it in — one customer per row. Only the name is required.
- 4 Save it as CSV, press **Choose File**, then **Upload & Add Customers**.

Good rows go in even if some rows have mistakes. Anything it could not add is listed underneath with its row number, so you fix only those.

TIP For **State** you can write the name ([Maharashtra](#)) or the number ([27](#)). If you fill in the GSTIN you can leave State empty — the first two digits of a GSTIN *are* the state.

The import window. Three steps, and the rules are written on it.

7

Add what you sell

Open **Items** and press **+ Add Item**.

- 1 Name it.
- 2 Choose **Goods** or **Service**.
- 3 Type the **HSN** code (goods) or **SAC** code (service).
- 4 Type the price and the **GST rate**.
- 5 Press **Save**.

Now you can pick it on a bill instead of typing it out every time.

TIP

Items have a bulk upload too, on the same page. Same idea as customers.

Showing 1-4 of 4

25 / page < Prev Page 1 of 1 Next >

Aurora Industries...
owner@auroraindustr...

Your item list. Price, HSN and GST fill themselves in on a bill.

8

Make a bill

Press + **New Invoice** from anywhere.

- 1 Pick the **customer**. Their details appear underneath.
- 2 Pick an **item** on the first line. Price, HSN and GST fill in by themselves.
- 3 Type the **quantity**.
- 4 Press + **Add item** for each extra line.
- 5 Check the **total** on the right, then press **Save Invoice**.

The bill number is made for you when you save.

WHY IT MATTERS

You never choose the tax. Read the green box — it says which tax was applied and why. If it says something you did not expect, check the customer's state.

The screenshot shows the Klogu Bizz GST Billing Suite interface. The sidebar menu on the left includes options like Dashboard, Invoices, Bill Generator, Quotes & Challans, Recurring, Management, Clients, Items, Inventory, Payments, Purchases, Receivables, Profit & Loss, Reports, GST Returns, Business Profile, Users & Roles, Subscription, and Security & Privacy. The top navigation bar shows 'Aurora Industries Pvt Ltd > New Invoice' and a search bar. The main content area is titled 'New Invoice' and includes a 'Save Draft' button and a 'Save Invoice' button. The 'Invoice Details' section shows 'INVOICE NUMBER' as 'Auto-generated on save', 'INVOICE DATE' as '11-09-2026', and 'DUE DATE' as '26-09-2026'. The 'Invoice Summary' section shows 'Subtotal' as ₹0.00, 'CGST' as ₹0.00, 'SGST' as ₹0.00, and 'Total' as ₹0.00. The 'Bill To' section shows 'CLIENT' as 'Bharat Logistics LLP' and 'Bharat Logistics LLP' details. The 'Bank Details' section shows 'BANK NAME' as 'HDFC Bank', 'ACCOUNT NUMBER' as '50100XXXXXXXXX', and 'IFSC CODE' as 'HDFC0001234'.

Making a bill. The green box confirms CGST + SGST, because this customer is in the same state.

9

Look at the finished bill

From the invoice list, press **View** on any bill.

From there you can **Download PDF**, **Print**, or **Email** it straight to the customer.

This is a computer generated invoice.

Authorised Signatory
Aurora Industries Pvt Ltd

A finished bill: your details at the top, theirs below, the tax split, and your signature.

10

Write down a payment

When money comes in, tell the app.

- 1 Open **Payments** and press **+ Record Payment**.
- 2 Pick the bill it is against.
- 3 Type the amount, the date, and how it came (bank, cash, UPI).
- 4 Press **Save**.

Part payments are fine. The bill then shows how much is still due.

The screenshot displays the Klogu Bizz Payments dashboard for Aurora Industries Pvt Ltd. The interface includes a sidebar menu with options like Dashboard, Invoices, Bill Generator, and Payments (which is currently selected). The main content area shows a summary of payment metrics: Total Collected (₹16,47,516.00), Pending Amount (₹0.00), and Overdue Amount (₹3,18,600.00). Below this, there's a section for Average Collection (170 days). A table lists invoices with columns for Invoice #, Client, Invoice Date, Due Date, Amount, and Balance Due. Two invoices from Bharat Logistics LLP are shown, both with a balance due of ₹1,59,300.00. The dashboard also features a search bar for invoice numbers and a pagination control at the bottom.

INVOICE #	CLIENT	INVOICE DATE	DUE DATE	AMOUNT	BALANCE DU
KLG-2026-020	BL Bharat Logistics LLP accounts@bharatlogistics.example	20 Aug 2026	04 Sept 2026	₹1,59,300.00	₹1,59,300.0
KLG-2026-021	BL Bharat Logistics LLP accounts@bharatlogistics.example	20 Aug 2026	04 Sept 2026	₹1,59,300.00	₹1,59,300.0

Payments received. Each one is linked to its bill.

11

See who has not paid

Open **Invoices**. The label beside each one tells you where it stands:

- **Paid** money received in full
- **Partial** some money received
- **Pending** not due yet
- **Overdue** past the due date

Use the search box to find any bill by number, customer or amount.

The screenshot shows the Klogu Bizz GST Billing Suite interface. The sidebar menu on the left includes options like Dashboard, Invoices, Bill Generator, Quotes & Challans, Recurring, Clients, Items, Inventory, Payments, Purchases, Receivables, Profit & Loss, Reports, GST Returns, Business Profile, Users & Roles, Subscription, and Security & Privacy. The top navigation bar shows the user is logged in as Priya Menon (Admin) and the company is Aurora Industries Pvt Ltd. The main content area is titled 'Invoices' and shows 21 total invoices. It includes filters for All (21), Paid (15), Pending (0), Overdue (2), Draft (4), and Cancelled (0). A search box is available to search by invoice number or buyer. The table below lists the invoices:

INVOICE #	CLIENT	DATE	DUE DATE	SUBTOTAL	GST	TOTAL	ST
KLG-2026-021	Bharat Logistics LLP 27AAACT2727Q1ZW	20 Aug 2026	04 Sept 2026	₹1,35,000.00	₹24,300.00	₹1,59,300.00	Overdue
KLG-2026-020	Bharat Logistics LLP 27AAACT2727Q1ZW	20 Aug 2026	04 Sept 2026	₹1,35,000.00	₹24,300.00	₹1,59,300.00	Overdue

KLG-2026-014	Bharat Logistics LLP 27AAACT2727Q1ZW	05 Aug 2026	25 Aug 2026	₹89,000.00	₹16,020.00	₹1,05,020.00	Paid
KLG-2026-005	Chennai Silk House 33AAACT2727Q1Z3	04 Aug 2026	19 Aug 2026	₹1,51,400.00	₹27,252.00	₹1,78,652.00	Pending

Your bills, newest first.

12

Check your dashboard

This is the first screen you see. In one look:

- how much you have **collected**;
- how much is **still to come**;
- how much is **overdue** — chase these first;
- which months were good, and who your biggest customers are.

The dashboard. Four numbers, then the detail underneath.

13

Your GST returns

Open **GST Returns** and choose the month.

Everything is worked out from the bills you already made — you do not type anything in again. You get **GSTR-1**, **GSTR-3B** and the **HSN summary**, and you can download each one.

TIP

Look at this before the filing date, not on it. If a number looks wrong, the bill behind it can still be fixed.

The screenshot displays the KloguBizz GST Billing Suite interface. On the left is a sidebar with a 'MAIN MENU' containing links to Dashboard, Invoices, Bill Generator, Quotes & Challans, Recurring, and a 'MANAGEMENT' section with links to Clients, Items, Inventory, Payments, Purchases, Receivables, Profit & Loss, and Reports. The 'GST Returns' link is highlighted. Below the menu is the user profile for 'Aurora Industries Pvt Ltd' with an email address and a logout button.

The main content area is titled 'GST Returns' and includes a subtitle: 'Section-wise GSTR-1, the GSTR-3B computation, and your input tax credit'. It features a date selector set to 'August, 2026' and buttons to download 'CSV' and 'GSTN JSON'. There are tabs for 'GSTR-1', 'GSTR-3B', and 'Input tax credit', with 'GSTR-1' currently selected. A warning message states: 'Prepared from your records in KloguBizz. Reconcile against GSTR-2B and your books before filing — this is a preparation aid, not a filing service.'

Summary cards are displayed for 'TAXABLE VALUE' (₹3,59,000 from 3 invoices), 'TAX' (₹64,620, broken down into IGST ₹0, CGST ₹32,310, and SGST ₹32,310), and 'CREDIT NOTES' (₹0, 0 issued this period). A 'NET TAXABLE' card shows ₹3,59,000 after credit notes, with a note to reconcile to this value.

At the bottom, there is a section for 'B2B — registered buyers' which includes SEZ and deemed exports, flagged by invoice type, with a link to view '3 invoices'.

GSTR-1 for the month, built from your bills.

14

Turn on e-invoicing

Open **Business Profile** and scroll to **E-Invoicing (IRN & signed QR)**. This card only appears on the Business plan and above.

- 1 Type your **Portal GSTIN** — the one your e-invoice portal account is registered under.
- 2 Type the **API username** and **API password** the portal issued you. These are not your login for this app, and not your login for the GST portal.
- 3 Leave **Portal** on **Sandbox** until a test invoice has worked.
- 4 Fill in your **declared turnover**, switch on **Report invoices to the portal**, and press **Save e-invoicing settings**.

Raise an invoice for a customer who has a GSTIN, open it, and press **Generate IRN** — the IRN and a signed QR appear on the document.

TIP The full walkthrough — registering on the government portal, getting your API credentials, and moving from sandbox to production — is in the separate **E-Invoicing Setup** guide.

E-Invoicing (IRN & signed QR)

Reports your invoices to the government portal and puts the IRN and its signed QR on the document. Mandatory above a turnover threshold; optional below it.

E-invoicing is not switched on for this server yet. Nothing you enter here can connect until it is. Missing: `IRP_BASE_URL`, `IRP_CLIENT_ID`, `IRP_CLIENT_SECRET`, `IRP_PUBLIC_KEY`.

PORTAL GSTIN

The GSTIN your e-invoice portal account is registered under. Usually the same as above.

API USERNAME

Created by you on the e-invoice portal under **API Registration** — not your portal login.

API PASSWORD

Encrypted before it is stored, and never shown again. A password is already saved.

PORTAL

The sandbox issues real-looking IRNs that are filed nowhere. Switch to production only once a test invoice has worked.

DECLARED TURNOVER (₹)

Last year's aggregate turnover across all your GSTINs. Recorded because the threshold is a fact about your business that this software cannot work out.

Report invoices to the portal ☒

E-Invoicing settings, on Business Profile. GSTIN, portal credentials and the sandbox/production switch all live here.

15

Reports

Open **Reports** for sales by customer, by item and by month, and for the money still owed to you. Every report has a **Download** button, so your accountant gets a spreadsheet instead of a screenshot.

Reports. Pick a date range and download.

16

Put it on your home screen

It works like an app, and there is nothing to install from a store.

- 1 Open the site in your phone browser.
- 2 **Android:** menu ☰ → **Add to Home screen.**
- 3 **iPhone:** the Share button → **Add to Home Screen.**

Now it opens full screen from your home screen, like any other app. Tap ☰ at the top left for the menu.

The dashboard on a phone.

Tap the ☰ button for the menu.

That is the whole thing

Steps 1 to 4 are done once. After that your day is step 8, step 10 and a look at step 12 — make a bill, write down the payment, check what is overdue.

Anything you change in Business Profile or Invoice Templates appears on the next bill you make. Bills you have already sent stay exactly as they were sent.
